## WIND, RAIN, HAIL.

Terrific Storm in Westmoreland County, Pennsylvania.

A Number of Buildings Wrecked and Several People Injured—Damages Elsewhere.

[By Telegraph to the BULLETIN.]

GREENSBURG, Pa., April 5.—A terrific wind, hail and rain storm, accompanied by lightning, passed over the southern part of Westmoreland county last evening, doing great damage.

At Scottsdale, Everson and Brownstown the wind was very severe, blowing down and unroofing buildings in all parts of the town. The Scottsdale rolling mill was unroofed and the interior badly wrecked by falling timbers, while the Jackson House, Henry Reed's house and the Keagy residence were badly damaged.

A large two-story frame building at Heminger's Mill, near Scottsdale, was blown down and two of Mr. Heminger's daughters were carried about 200 feet, but escaped injury.

In all parts of the above mentioned towns there is scarcely a house in which the windows and doors are not blown in or broken by the hail, which fell to the depth of several inches. For a time the people were panic-stricken and fled to the basements of the houses. Many persons were slightly injured by the broken glass and flying debris, but no fatalities are reported. The loss to property can not be estimated at present.

Where the Storm Crossed the River.

WHEELING, April 5.—A terrific storm of wind and hail cut across Belmont county, O., and Ohio county, W. Va., at 3 o'clock yesterday afternoon. Reports from all the towns in the storm's track tell of buildings unroofed and thousands of windows broken. Small streams were swollen over their banks in a few minutes.

At St. Clairsville, O., not a house escaped some damage, while at Martin's Ferry, Ettaville and other places the loss is serious.

Five buildings were unroofed in the northern part of this city, but the worst part of the storm fortunately passed half a mile north. The hills north of the city are white with hailstones.

One life is reported lost at Glenn's Run, three miles north of Wheeling. At Martin's Ferry, O., 15,000 panes of glass were broken, and at St. Clairsville, 5,000. The market gardens north of this city alone sustained a loss of \$6,000 in damage to hotbeds. Dozens of orchards are almost ruined.

Another Cyclone in Kansas.

CHEERYVALE, Kan., April 5.—Yesterday a tornado swept the country about a mile from this station, leaving destruction and death in its wake. Many houses have been uprooted and wrecked, and two lives were lost.

While this town was not touched by the raging winds, a fatality occurred, nevertheless, an aged woman being killed by the lightning.

The two victims of the Towanda storm, C. L. Westcott and Elmer Hall's child, have succumbed to their injuries and the list of the killed now numbers nine.

Dexter has also been devastated but no loss of life is reported. The atmospheric condition is not calculated to allay the fears of further destruction. Threatening black clouds, a falling barometer and fierce southerly winds are indications which clearly presage more storms.

News from the storm-stricken district of western Kansas brings nothing that has not already been told regarding the number of deaths and wounded. It is estimated that the damage to property will reach \$500,000, and the number of dead reach about fifty.

Illinois Town Wiped Out of Existence.

CHICAGO, April 5.—Fairfield, Ill., a town of 1,000 people, has been entirely wiped out by a cyclone. Several persons are reported killed. Telephone wires are all down and particulars not obtainable.

VENEZUELAN TROUBLES.

The Surface is Peaceful, but Insurrection is Feared.

BUENOS AYRES, April 5.—President Pellegrini has ordered all the troops in camp at Maldonado under arms, and they are prepared to march into Buenos Ayres at a moment's notice.

All Saturday night the Government house was guarded by an entire regiment of infantry. The utmost precautions have been taken to avoid surprise. All suspected parties who have not been placed under arrest are closely watched. The police have seized the offices of Sad America and Argentine, two of the leading radical afternoon papers.

This city is quiet at this moment, but there is no telling how long the enemies of the administration will remain inactive. Only on the surface is it peaceful.

Advices from other parts of the republic show that the spirit of revolts prevails everywhere. It is the general impression that the Radicals will regain courage and start an insurrection between now and election day.

CINCINNATI, April 5.—J. Auber McIntyre, of Cleves, O., reported missing, has not been heard of since April 1. It has been learned that he had \$350 on him when he came to Cincinnati, and foul play is suspected.

## NEW ORLEANS FIRE.

Insurance Men Trying to Find Out the Exact Loss.

NEW ORLEANS, April 5.—Insurance men are endeavoring to figure up the losses by Sunday's two fires, but owing to the large number of dwellings burned and the reinsurances any possible estimate at the present time is impossible. The residence square was settled by poor and wealthy people alike and the loss falls heavily on both.

The local companies have been hit very hard, but all of them are sound and able to stand the loss, and insurance men say the embarrassment will be but temporary. Estimates furnished to papers make local companies lose on cotton and buildings about \$371,000. The foreign companies are all heavily affected.

It is estimated today that the insurance loss on both fires is \$2,700,000 which will swell the actual loss to considerably over \$2,000,000. Many people have been thrown out of their homes by the fire, and among the poorer classes especially much privation is to be noted. Charitable persons and exchanges however are rallying to the relief of the distressed, and will subscribe sufficiently to keep all from want.

The cotton press syndicate had accepted the option on their cotton presses, but the transfers had not been made and the owners bear the loss. As there have been for some time too many presses in the city it is unlikely that those destroyed will be rebuilt. The burned residence portion of the city, however, will be rebuilt.

The city was in darkness last night, but the electric company is repairing the damage and will be in working order again this evening. Fire is still smoldering among the cotton and a number of engines are still kept pumping to prevent renewed outbreaks.

The injured firemen are doing well.

ADDRESS TO PROHIBITIONISTS.

Chairman Hall Not in Favor of a Fusion with the People's Party.

INDIANAPOLIS, April 5.—Chairman Hall, of the Prohibition state central committee, has issued an address to the party, in which he takes ground against the proposed fusion with the People's party. In the course of his address, he says:

"Now, after a careful consideration of the subject of union or fusion with the People's party, the humble advice of your chairman is to put a straight Prohibition ticket into the field everywhere.

Some time in the future it may be wise (and that the day will come) for the Prohibition party and the People's party to unite forces in Indiana, but the unanimous decision of your state committee, in session last Friday, was that that time is not now. And likely that time never will come until the two political parties both stand in their national platforms for Prohibition and other needed reforms. While we can not now unite with our reform brethren on a state ticket (neither do they so desire), it is well, I believe, for us to encourage and help each other in getting good men and women out of the old corrupt political parties."

SHE WAS THE CAUSE OF A DUEL.

Death of Mrs. Philip Haxall, Formerly Miss Triplett, of Richmond.

RICHMOND, April 5.—Mrs. Philip Haxall, formerly Miss Mary Triplett, died Sunday morning after an illness which only lasted eighteen minutes. She was a noted society belle and beauty, and was remotely the innocent cause of the famous Mordecai-McCarty duel which occurred in 1873. Her husband, Captain Haxall, belongs to the well known flour-milling firm of that name in this city.

Revenue Officer Killed.

RALEIGH, April 5.—A special to The State Chronicle from Lenoir, N. C., says that Julius D. Miller, a revenue officer of that place, was killed near the Wilkes county line yesterday afternoon by one Mitchell, who had stolen a horse from Union county, Tenn. One officer followed the thief's trail through four counties, and lost the track, when Miller took the case in hand and followed the thief, running up with him at Little Rock church, where services were being held. They had an exciting revolver duel, in which Miller was killed, the thief and murderer abandoning his horse and taking to the woods.

Valuable Goods Destroyed.

ST. MARY'S DEPOT, O., April 5.—Near Fort Recovery fire destroyed the Miller family dwelling. The family consists of three sisters and one brother, noted for their eccentricities. For years one of the sisters has been confined to bed, and is devoid of reason. Whatever she asked for she got, consequently the old home was converted into a store room of fine silks, gold watches, dress goods and articles of every description, all of which were consumed.

Ran Down by a Train.

AKRON, O., April 5.—A fatality which bears every indication of a horrible suicide, occurred yesterday on the Erie railway, in South Akron. Train No. 88 ran down and killed Archibald Nivens, a mechanic. He was walking on the track with his back to the approaching train and paid not the slightest heed to the warning shriek by the locomotive. His friends say he was not deaf, and suicide is the only explanation offered.

Storm Damages.

BRAZIL, Ind., April 5.—The terrific rains of Sunday caused considerable loss here. Fences and small buildings were washed away, and crops in the lowlands seriously damaged. On the flat lands in the south part of the city several families were drowned out of their homes. The water rose rapidly, and in several houses the occupants lingered so long in their efforts to save some of their effects that they had to be rescued in wagons.

## AMONG THE SEALERS.

Indians Afraid to Assist in Loading Vessels.

VICTORIA, B. C., April 5.—The steamer Mystery arrived yesterday afternoon from the west coast. It is reported the sealer Minnie is waiting at San Juan over a month for the Indians, who are too scared to go about, having been threatened with American gunboats, etc., if they go north. They are also afraid even to assist in the shipping of stores on the sealers. The Mystery has taken 800 skins to Victoria, and the Pioneer 200.

The captains of the sealers are dissatisfied with the customs authorities as to their claims for compensation. Their papers lie at the customs house here, and they can't get them. Two captains came down last night to act for the rest, and endeavored to get their papers so as comply with the fresh demands for information as to details, and the nature of claims, and all are disposed to take no notice of the warning that an action is at their own risk.

The flagship Warspite has returned to port, a month earlier than was expected. Admiral Hothall says the intention was to have gone to Honolulu before coming to Esquimaux for the summer, but having information that a large party of marines would arrive during April at Esquimaux, and hearing so much through the papers of prospects of the modus vivendi, he sailed for British Columbia direct. Dispatches awaiting him here contained no reference to the Behring sea matter, and the future movements of the squadron are not definitely decided. As far as known, none will go to Behring sea, though it is thought possible that the Warspite is here before the arrival of advices for the admiral.

## EIGHT-HOUR LAW.

It Applies to Day Workers Only Says an Indiana Judge.

INDIANAPOLIS, April 5.—Last October John Grissell sued Noel Brothers for pay for overtime, which he alleged he worked while in their employ. His suit was based upon the eight-hour law. The case was tried in Judge Harper's court, and aroused much interest because it brought up new legal questions of importance to employers and employees alike. Grissell had been in the employ of Noel Brothers sixty-five weeks, and after this discharge sued for pay for all the time above eight hours a day that he had worked. The trial was decided in Grissell's favor, and he received a judgment for \$125.

The case was appealed and yesterday the full bench of the superior court reversed the finding in Judge Harper's court. Judge Harper himself favoring the reversal. Judge Taylor held that as Grissell was employed by the week, he could not receive the benefit of the eight-hour-a-day law; that that law applied only to day workers. Judge Walker was of the opinion that the agreement between himself and his employees precluded any benefit from the eight-hour law, and Judge Harper held that as Noel Brothers settled with Grissell every week, presumably in full, and he made no protest, it is now too late for any appeal to that law.

Robbers' Retreat Discovered.

MARTINSVILLE, Ind., April 5.—The residents along Goose creek, in the southern part of this county, are wonderfully alarmed over the discovery of a large cavern in that vicinity, in which was found an old linsey quilt and a few tools. The supposition is that it is the retreat of robbers and horse-thieves. The retreat is difficult of access, and was only discovered by accident. Reports from the neighborhood are to the effect that no one has lost any goods recently, nor have they ever seen any strangers in the vicinity, and the fact that the quilt is of the pattern of fifty years ago, leads some to believe that the abode must have been abandoned in a hurry many years ago.

Drink Causes a Murder.

BUTLER, Ky., April 5.—A fatal shooting occurred late Saturday evening near Menzie's Station, four miles south of this place. Titus Redman and Americus Parker had a dispute over some trivial matter. Both were under the influence of whisky when they came together, Redman with a shotgun and Parker with a pen-knife. They went at each other. Redman fired and killed Parker after which he went to Falmouth and gave himself up to the proper authorities.

Pleasure Party Drowned.

GREENFIELD, Mass., April 5.—A boat containing a pleasure party of six were carried over a dam near Coleraine, on the Deerfield river, yesterday, and five of the occupants were drowned. They were: Joseph Egger, thirty-five; two boys named Lord, fifteen and sixteen, Miss Lord, eighteen; Miss Bogeny, fifteen. Caroline Finks was saved by people on the bank. The bodies have been recovered. The disaster is attributable to high water and swift current.

A Minister's Appeal.

VALPARAISO, Ind., April 5.—Rev. T. H. Cannon, who was deposed from the pastorate of the Free Methodist church at Knox, because he persisted in wearing a mustache, has taken an appeal to the general conference. Cannon is not in accord with the church on other points of discipline. His conscience rebels against the custom of embracing the sisters on occasions of religious enthusiasm.

Trouble Among Manufacturers.

CONERSVILLE, Ind., April 5.—Owing to an internal strife among the stockholders, J. B. McFarlan, president, and John Payne, secretary, resigned from the Stearns Manufacturing company. It may cause trouble.

Private Secretary Halford Ill.

WASHINGTON, April 5.—Private Secretary Halford is slightly ill and confined to his hotel.

## FREAKS OF A FLOOD.

The Salmon River Has Overflowed Its Wide Banks.

Several Large Bridges and a Number of Small Houses Swept Out of Existence.

[By Telegraph to the BULLETIN.]

MONTREAL, April 5.—Early yesterday morning Salmon river, in Huntingdon county, overflowed its banks and inundated the village of Dundee. Then the ice began to break up in the river, and with a tremendous rush the channel was forced open and huge masses of ice came tearing down, carrying with them the steamer Grenada, to a mile below Dundee.

Next came the large iron bridge from Fort Covington, N. Y., a mile above Dundee, floating on top of the ice and rushing along at a great rate of speed. This was followed in the same manner by the Grand Trunk railway bridge, from near the same place, and the flume of one of the Fort Covington mills. These were followed by masses of lumber and debris from the bridges, trees, etc. The large number of bath-houses along the banks of the river were either carried away or ground to bits.

The cause of the flood was the breaking away of Meyer's mill-dam near Fort Covington. Had the dam just above Meyer's dam broken, as was feared, the damage would have been much greater. All traffic on the Grand Trunk between Fort Covington and Massena is suspended for the present.

The Canadian Pacific railway bridge across the Yamaska river on the old southeastern branch line, eleven miles east of Sorrell, was carried away by the ice jam last night. The ice crushed to pieces the ice piers above the bridge and swept the structure to pieces.

Expecting a Flood.

SALAMANCA, N. Y., April 5.—Old raftsmen about here predict that this spring will witness the greatest floods ever known in the history of the Alleghany river. They say that the mountains around the head waters of the Alleghany, extending for miles back into the country, the ground is covered with from six to twenty inches of snow. When a warm spell strikes this great watershed the deluge will be upon the flats, and oil wells, dwellings and mills on the banks of the river will be swept from the face of the earth.

FEMALE DICK TURPINS.

A Whole Family of Six Daughters Trained to Rob Stages.

SALON CITY, Ida., April 5.—An important arrest, one of one woman and six girls, has been made here. Numerous holdups of the stage have occurred near Harvey's ranch lately. Suspicion was directed to old man Harvey and his family and the sheriff set out to trap him. The sheriff with ten men waited in hiding near the place the robberies usually took place and when the stage arrived there a short time afterward, six bandits stepped out in the road and stopped it, leveling their guns at the driver.

The sheriff here came forward and took in the whole gang, which proved to be composed of Harvey's six daughters, who had assumed male attire. When the arrest was made one of the girls weakened and told the whole story. She said she never liked the work and was glad they were caught. They were trained to it by their father and mother and the proceeds were shipped east for sale so as not to excite suspicion in the country.

Old Landmark Wiped Out by Fire.

BALTIMORE, April 5.—A fire occurred yesterday at 11 o'clock by which one of the old landmarks of Mount Washington was entirely destroyed. It was a dwelling owned by Mrs. M. D. Sauerwein, and occupied by Parks Fisher. Word was sent to Govanstown and Arlington for help, there being no fire quenching apparatus at Mount Washington, but when the engines arrived the fire was beyond control. The loss sustained by Mrs. Sauerwein is at the lowest estimate, \$20,000. A large and valuable library was consumed.

Murdered His Wife.

LACONIA, N. Y., April 5.—Mrs. Drusilla A. Wiggins was murdered at the railway station in Meredith yesterday by her husband, George E. Wiggins. She was seeking a divorce and had not lived with him for two years on account of his ill-treatment. Wiggins cut her throat and stabbed her in a horrible manner. He surrendered and was brought to jail here last night. A ten-year-old daughter was present when the murder occurred.

Stock Train Goes Through a Trestle.

ST. LOUIS, April 5.—An Iron Mountain northbound stock train consisting of six cars and an engine went through the trestle bridge at Sabula, Mo., between Hogan and Annapolis, south of this point and 108 miles from St. Louis, yesterday. Brakeman Roger was instantly killed and the engineer and fireman had a narrow escape from death, it being at first reported that they also were killed, but they subsequently turned out all right.

Kept People From Church.

MARTINSVILLE, Ind., April 5.—One of the hardest rain storms ever known here visited this city Sunday. The water flooded the streets so that no one could attend church, being two feet deep in places. Many culverts and bridges were washed away. The creeks flooded the lowlands and much damage is reported to fencing and stock.

# EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.  
ROSSER & McCARTHY,  
Proprietors.

TUESDAY, APRIL 5, 1892.

## WEATHER INDICATIONS.

For Kentucky, showers; fair Wednesday;  
colder Wednesday morning; south west  
gales, shifting to west.

Judge Piester and Mr. John C. Everett, County Assessor, have been added to the committee who will go to Frankfort tomorrow to confer with the State Board of Equalization in regard to the increase in the assessment of Mason County. The committee will present some statistics that ought to induce the Board to reconsider its action and allow the assessment to stand as reported, or else make the increase more reasonable and fair to our tax-payers.

The announcement of Mr. J. C. Jefferson as candidate for Sheriff appears in this issue. Mr. Jefferson has been a Deputy for several years, and is thoroughly qualified for the office of high Sheriff. His faithful and efficient services ever since he qualified as a Deputy certainly entitle him to promotion now at the hands of his party. This is generally recognized, we believe, and it is not likely he will have any opposition. There is not a truer Democrat in the county.

## Real Estate Transfers.

S. H. Fleming and wife to Ella N. Kirk, a house and lot on corner of Race and Buckner street, East End; consideration, \$1 and other consideration.

A. S. Bliss and others to John B. Sidwell, 10 acres near Tuckahoe; consideration, \$750.

W. B. Mathews and wife to Harrison M. Dentley, two lots on north side of Third street, Sixth ward; consideration, \$250.

## Coming to Maysville for His Bride.

The society editor of the Louisville Post says: "Mr. J. Monte Hunter, who is in the insurance business and is a brother of Mr. Howard Hunter, the well-known insurance man, has gone on a mysterious journey. 'Business of importance,' his brother asserts, and so I suppose it is, as he has gone to Maysville. It is now a well established fact that he will soon bring home a bride from that town. He is largely interested in Warwick Villa property, and soon as his beautiful home is completed in that suburb he will take his bride there to reside near Mr. and Mrs. George Washburn, who will then be another newly married couple. The lady's name, with exact date of the wedding, will soon be given."

## King's Daughters.

The King's Daughters of this county are invited to attend a State convention of King's Daughters, to be held in Louisville, April 24, 25, 26. Mrs. Mary Lowe Dickenson and Mrs. J. C. Davis, of the Central Council, will arrive in Louisville on Saturday, the 23rd, and will address the convention on matters of vital interest to King's Daughters everywhere. They will be prepared to meet personally members of circles and suggest to them plans of work for their different localities, if delegates so desire. The initial meeting of the series will occur on Sunday afternoon in one of the churches. A reception will be given Mrs. Dickenson and Mrs. Davis by the King's Daughters of Louisville, to which all delegates will be made welcome.

All who intend to take advantage of this opportunity—and all our ladies are invited whether they are King's Daughters or not—are requested to communicate with Miss Lucy Richardson, 1026 Fifth street, Louisville. The Louisville King's Daughters, who are arranging for this convention, expect large delegations from all over the State.

## Terence Mackey.

The remains of Mr. Terence Mackey, brief mention of whose death was made yesterday, will be brought here Wednesday morning on the 9:45 train from Cincinnati, where he had been attending college on Price's Hill, preparing himself for the priesthood. He took sick with pneumonia a few weeks ago and went to the Good Samaritan Hospital for treatment. Continuing to grow worse, his mother was summoned to his bedside, some days since, but neither the care of the good sisters nor the attention of a devoted mother, nor the services of his faithful physician availed to check the progress of the disease, and he breathed his last at six o'clock yesterday morning.

Mr. Mackey was a son of Mrs. Ellen Mackey of the Washington neighborhood and was a most exemplary young man. He was preparing to spend what he had reason to hope would be a long life in the service of God, but was called to his eternal reward before his labors were begun.

On arriving here the remains will be taken to St. Patrick's Church, where a Requiem Mass will be celebrated, after which the interment will take place at Washington.

## STOCK AND CROPS.

### Conditions as Shown By the Monthly Report of the Commissioner of Agriculture.

The regular monthly review of the condition of crops and live stock in Kentucky has been issued by Nicholas McDowell, Commissioner of Agriculture, Horticulture and Statistics. The review is based on reports from ninety counties.

The growing crop which is of most interest now to the country at large is that of wheat. The prospect for a fine crop at this time is very flattering, not only in this State, but all over the land. Through the fall and first part of the winter the late sown wheat made very slow growth, but through the month of March the growth has been very fine. The freeze on the 9th ult., occurring about the same time of that of 1890, was very alarming, from the fact that the crop of that year was cut off fully one-half; but the weather being favorable since, and if nothing unforeseen happens, the crop will be good—per cent., 92.

The average of rye is small; the prospect good—70 per cent.

Barley has not been raised much for some years. The crop looks well; not much raised—40 per cent.

Mules have been an interest of very great importance to the State, but the trade looks very blue at present. The very great depression of prices may be assignable to various causes, two of which are apparent. First, the very low price of cotton and sugar. Second, it is estimated that electricity has taken the place of over one hundred thousand mules, which were employed in street-car lines in the different towns and cities of the United States. The number of two-year-old mules being fed is 10,875.

Horses have wintered remarkably well—per cent., 102.

Fully as many beef cattle are being fed as usual, and somewhat better quality; a large per cent. will be fat early. The number put to sleep at the distilleries will be fat early—per cent., 95.

Very little hog cholera is reported; the price not so good as last year, but better in proportion than the price of pork; there will be fully as many, if not more, for market this spring, than usual—per cent., 104.

There will be a large corn crop planted, as part of the hemp land will be planted in corn.

Oat crop hardly an average; will be somewhat late.

Judging from the great demand for seed, the tobacco crop will be very large. There has been sent out from the Commissioner's office an unusual quantity of seed.

## Here and There.

Mr. C. W. Lurvey is down from Lexington on a visit to his family.

Mr. John Peed, of Bourbon, is in town on a visit to his brother Mr. J. D. Peed.

Dr. Harry Hays, who graduated a few days ago at one of the colleges in Cincinnati, arrived this morning on a visit to his uncle, Rev. John S. Hays, D. D.

A mock of semi-cannel coal weighing 600 pounds is an attraction at Sherburne. It was rafted down the Licking to that point. George Faulkner, of Flemingsburg, will dress it, and it will be placed in Kentucky's exhibit at the World's Fair, provided Kentucky's Legislature doesn't get too niggardly and refuse to appropriate money to pay for an exhibit.

At the annual meeting of the Maysville and Lexington Turnpike Company yesterday, Mr. C. E. Tabb was elected President, Colonel W. W. Baldwin, Superintendent, and Mr. C. B. Pearce, Jr., Secretary and Treasurer. The following were chosen Directors: Judge G. S. Wall, Dr. Thomas E. Pickett, Colonel W. W. Baldwin and Messrs C. B. Pearce, J. J. Peed, C. E. ## The Two Hands.

It is remarkable that with the majority of people the neglected left hand is not in mere strength inferior to the right. We have heard truly right handed people actually declare that their left hand is the stronger, and from the writer's own experience he knows this to be the case. This may be from the mechanical advantage and better balance of the body, the right side being heavier, or it may be due to the large muscles of the unused arm being less hampered by the development of other muscles. It is difficult in these cases to say which is the "right" hand, for the fact that the unused arm is the stronger does not imply ambidexterity, nor can we justly give the precedence to strength over dexterity.

Moreover, we cannot call the hand that excels in one series of dexterous motions the superior hand if it can be shown that the other is chosen to perform an act which, apparently trifling, may require some knack or nicety of touch. It is the hand put forth in emergency, when taken by surprise, that makes a spontaneous gesture, the hand that acts first, which is the "right" hand.—London Spectator.

## THE MARKETS.

LOUISVILLE TOBACCO MARKET.  
Furnished by Glover & Durrett, proprietors Louisville Tobacco Warehouse.  
Sales on our market for the week just closed amount to 3,407 hds., with receipts for the week of 3,354 hds. Sales on our market since January 1st amount to 32,617 hds. Sales of the crop of 1891 on our market to date amount to 45,846 hds.  
The market for burley tobacco this week has been almost a repetition of the week previous, about the only difference is that good medium leaf has been a little stronger and the buyers are a little more particular as regards order. The sweating is near at hand, and parties shipping their tobacco now should be particular in this respect.  
The following quotations fairly represent our market for burley tobacco, crop of 1891:

## WEEKLY REVIEW OF THE CINCINNATI TOBACCO MARKET.

The offerings at auction for the week just closed were 1,615 hds. classed as follows: 397 hds. Mason County (Ky.) District, 379 hds. Pendleton County (Ky.) District, 225 hds. Owen County (Ky.) District, 173 hds. Blue Grass (Ky.) District, 461 hds. Brown County (Ohio) District, 2 hds. Indiana, and 4 hds. West Virginia, of which 1,081 hds. were new, against 1,615 hds. the previous week. The 212 hds. were new, against 2,300 hds. the corresponding week last year, of which 998 hds. were new. Total offerings for the year to date 31,150 hds., of which 17,020 hds. were new, against 31,784 hds. same time last year, of which 17,020 hds. were new.  
The offerings, while slightly more than previous week, are still small, but the receipts show a very noticeable increase over the previous week and were of good size. The week's business, taken as a whole, was fairly satisfactory. There was a firm, steady market. The number of hds. of the common and low grades was very large, being nearly 80 per cent. of the entire offerings, yet this kind, both new and old, there was an active demand, and prices paid generally accepted, the rejections on these grades being light. Medium and common leaf met with only a fairly good demand. For the very few hds. good leaf the week was a good, steady demand. Nothing fine or fancy was on sale.

Of the 1,000 hds. (new), 103 sold from \$1 to \$1.95, 416 from \$1 to \$3.35, 230 from \$3 to \$7.90, 97 from \$8 to \$9.95, 144 from \$10 to \$14.75 and 10 from \$15.75 to \$17.50.  
Of the 555 hds. (old), 66 sold from \$1 to \$3.35, 184 from \$4 to \$5.95, 230 from \$6 to \$7.90, 54 from \$8 to \$9.75, 27 from \$10 to \$14 and 4 from \$15 to \$15.75.

### Maysville Now Ready For it—Work of Numbering the Houses Complete.

Mr. W. C. Pelham has completed the contract for numbering the houses in the city of Maysville and marking the streets with signs.

The house numbering is done according to the Philadelphia system, the numbers running south from Front street and east and west from Market street. The streets running back from the river have the odd numbers on the west side and the even numbers on the east side, beginning with 100 at Front street, with 200 at Second street and with 300 at Third street and so on. The streets running east and west have the odd numbers on the north side and the even numbers on the south side, beginning with No. 1 at Market street, No. 101 at the first street from Market, No. 201 at the second street from Market, and so on, the portion of the house number read "hundred" indicating the number of squares east or west from Market street and the rest of the number the location of the house on the square. For instance No. 801 East Second street would be the first house on the eighth square east of Market and on the north side of Second street.

If any mistakes have been made by the workmen in numbering the houses, or any omitted, Mr. Pelham would like to have them reported to him for correction.

The street signs are of porcelain enamel on iron plates, the most durable of any kind made.

The contract, so far as the five old wards of the city is concerned, was completed some time since. The addition of Chester as the Sixth ward required additional work, which Mr. Pelham only recently finished.

## BREACH OF PROMISE.

### What the Court of Appeals Says in the Case of Hamilton Versus Shackleford.

Mention was made a few days ago that the Court of Appeals had reversed the judgment of the Mason Circuit Court in the case of Lena Hamilton against James Shackleford. The judgment of the lower court was for \$4,500 damages in favor of the plaintiff, and the case was taken up by the defendant. Judge Pryor in his opinion reversing the case says:

It is implied as a part of every agreement to marry that any subsequent change in the mental or physical condition of either party without fault, so as to render it impossible in the nature of things to accomplish the objects for which the marriage relation is brought about, will release the parties from the agreement.

Where a man believing in good faith that he had been cured of a loathsome disease that he had contracted entered into an agreement to marry, the reappearance of the disease without fault on his part, so as to render him unfit to marry, released him from his obligation, and constitutes a good defense to an action against him for damages for breach of the contract.

Judge William Lindsay, Wadsworth & Son, Cochran & Son were the attorneys for Mr. Shackleford, while the fair plaintiff was represented by Ex-Senator Worthington, Whitaker & Robertson, Judge Wall and Captain Hutchins. The decision of the upper court practically settles the case.

## SUITS FOR DIVORCE.

### Four Filed in the Circuit Court Since Last Term—Other Litigation.

The April term of the Mason Circuit Court will commence next Tuesday. The appearance docket is about the usual one in point of number of cases.

Four divorce suits have been filed since last term, as follows: Emma Kain versus Thomas Kain; Pearly Lemming versus John Lemming; Thomas Wright versus Clara Wright; Harlin Perkins versus Priscilla Perkins. Wright is the man whose wife eloped with Henry Hasson last summer. She and Hasson are living in Cincinnati. Abandonment is the ground on which Perkins bases his suit. He married Priscilla in 1857, at Aberdeen, Squire Sholton officiating.

An important suit on the docket is that in which Sothern Bramel and other heirs are contesting the will of the late John Bramel. The will was probated in the Mason County Court and the suit is to set it aside. The estate is placed at about \$75,000.

## THE PEOPLE'S PARTY.

### Orders for the Campaign Issued—Congressional Convention May 7, in This City.

The State Central Committee of the People's party in Kentucky has issued its orders for the campaign. It invites all who are willing to stand upon the platform adopted at St. Louis to co-operate. County mass meetings are called in each county for April 30. These mass meetings are directed to organize county committees and select the delegates from each county to attend Congressional district conventions to be held Saturday, May 7. The convention for this district will be held in Maysville.

Each district convention is instructed to nominate a People's party candidate for Congress; to elect one member of a State Central Committee, and to choose four delegates to the National People's party convention, to be held July 4, at Omaha, Neb.

Each of the county mass meetings is also to elect delegates to a State convention to be held June 8, at a place not yet selected, for the purpose of selecting eight delegates-at-large to the Omaha convention, and of nominating two candidates for Presidential electors for the State-at-large.

A Courier-Journal writer says: "The plans are well laid, and if there are now voters enough the People's party may attract some attention in two or three of the Congressional races."

The track connecting the Kentucky Central and C. and O. is being placed in thorough repair.

Mr. D. Hechtlinger's many friends are glad to see him at his place of business once more. He has about recovered from the accident last week.

BALLENGER, the jeweler, has secured more commodious quarters just east of Mitchell, Finch & Co.'s Bank, and will move into the new store soon. In the meantime you can secure anything in the jewelry line at his old stand.

The American Association of Railway Surgeons will be the guests of the C. and O. at Old Point at the annual meeting on the 26th of next month. Dr. C. C. Owens, of this city, will attend and read a paper on some special case of surgery.

Dr. Paris Wheeler, the veterinarian, is suffering from blood poisoning of the right arm contracted some days ago in operating on a horse. He commenced treatment as soon as he discovered his danger, and is now better and improving.

The trial of Charles Breckinridge before Squire Grant yesterday ended in the accused being held to answer the charge of petit larceny. In default of \$100 bail, he was sent to jail. His main witness settled him. He would probably have been discharged had he kept that witness off the stand.

At the annual meeting of the Maysville and Mt. Sterling Turnpike Company yesterday Mr. W. R. Newell was elected President; Mr. B. F. Clift, Superintendent; Mr. C. B. Pearce, Jr., Treasurer; and Messrs. E. E. Pearce, D. D. Soulesley, Charles B. Pearce, T. L. Best and C. Hamilton, Directors.

Natives of East Corbo Object to the British Rules.

Death of King Sakitty—Bulgaria Preparing for War—Other Foreign News.

[By Telegraph to the BULLETIN.]

LONDON, April 5.—Advices from East Africa state that there has been trouble lately among the natives on the Gold Coast. The chief seat of the unrest was in the East Corbo country, and arose out of the conflict of British sanitary requirements with native customs. Sakitty, the King of East Corbo, died recently after a few days illness, and, according to native custom, was buried in his house.

Commissioner Williams, however, insisted upon burial in the proper place, and told the natives intramural burials had been prohibited by ordinances. A dispute arose on the point, which resulted in an attack upon the commissioner, who took shelter in a German house, and telegraphed to the governor. Hostilities were averted, Sakitty being exhumed and re-interred elsewhere.

The late king held a collar and sword from Queen Victoria, bestowed upon him by her majesty for efficient service rendered to the British government in the Ashantee war of 1873-74, although he practically was forced to side with the British under pain of death and the immediate occupation of his country. Otherwise, it is stated, the late chief was disposed to sympathize with the Ashantees.

More Food for the Starving.

LIBAU, April 5.—The steamer Missoni, from New York, with food for the famine sufferers, was enthusiastically welcomed on her arrival here. The steamer Concordia, having aboard Consul General Crawford, Count Bobrinsky, Mr. Edgar, Consul Bornhold, and a number of the civil and military authorities, went out to meet the Missoni. A band aboard the Concordia played the American and Russian national anthems. The discharge of the Missoni's cargo has already commenced.

LOCKED-OUT MOLDERS.

The Strike at Mansfield, O., Bears a Threatening Aspect.

MANSFIELD, April 5.—The difficulty between the locked-out union molders and the Eclipse Stove company has reached a high pitch. Sunday eight men were brought here by the company from Rochester, N. Y.

Sunday night the union molders went to the boarding house, where four of them were lodged, and took them into captivity. One escaped by a pretense of going into another boarding house for his trunk, and refusing to come out. The other four were lodged in the same house, and the proprietor refused entrance to the union men. Yesterday morning one of the three was escorted to the works by an officer, but the other two have agreed to return to their homes in Rochester.

Yesterday afternoon Mayor Newton issued a proclamation promising to see that all laws are enforced, and warning all persons against unlawful gatherings. The company will close its works before yielding to the union molders.

Beds have been provided in the factory for the non-union molders, and the company has decided to "hold the fort" as long as possible. The non-union men are under police protection.

## MORMON CONFERENCE.

A Vast Attendance and Great Faith in the Church's Future.

SALT LAKE, April 5.—Over 12,000 Mormons attended the first day's session of the sixty-second annual conference of the Church of Jesus Christ of Latter Day Saints Saturday. This session, in view of the recent political events, is looked upon as one of the most important in the history of the church.

Apostle Richards in a speech declared that those people who believed that they had received all the revelation that they were to get are mistaken, and that more was to come.

President George Q. Cannon spoke hopefully on the future and said the church was advancing with mighty strides, and that the hearts of the people of the east had been softened, and they now all have friendly feelings for the church.

President Woodruff, in a short speech advocated the union of the people; they should be united in their work, for as a people they can not deviate from the duty mapped out for them if they expect to have the blessing of God showered upon them.

DOWN WITH THE YANKS!

A Bold Attack on Uncle Sam by a Mexican Paper.

CITY OF MEXICO, April 5.—A few weeks ago, El Tiem, the newspaper organ of the Catholic clergy in Mexico, opened a register to inscribe the names of all the Mexican patriots who are opposed to the return of the flags taken by the Americans during the war, and publishes each day the names received for inscription. In its issue Saturday appears the following, which is signed by Louis Alfonso Munoz, minister.

"As a Catholic and Mexican, I protest against the insult which the hated and grasping Yankee offers to my adored country by the return of our flags which were taken from us very much as the thief and assassin robs the wayfarer of his belongings. My faith and my nationality and my Latin blood all compel me to cry out: Long live the independent Mexico! Death to the thieving Yankee! Down with the hated flag of the stars and stripes!"

The above letter has produced much excitement among the members of the American colony in this city.

Petrified Ham of a Porker.

SALEM, Ind., April 5.—A perfectly petrified ham of a large hog was recently found in a field on the poor farm in this county, and is now there in possession of George W. Roseberry. The specimen is almost perfect, even showing the saw marks on the rock. The line of division between the flesh and skin is also very plain. The flesh side is beautifully ornamented with shell fish and other water animals. It is a fine piece of nature's handwork, and has attracted a great deal of comment and speculation from persons interested in such things.
